Education

Noida Institute of Engineering and Technology, Greater Noida (2022-2026)
Bachelor of Technology - Computer Science & Engineering

(Artificial Intelligence and Machine Learning)

• M.M. Public School, Delhi (2020-2021) 10+2 Equivalent (Science)

M.M. Public School, Delhi (2018-2019)
High School

CO-Curriculars

Hackathons & Events

- 1. **Anchor** *Prithvi* Nature Fest: 2024 Selected as the official Anchor for Prithvi, the college's annual nature and environment-themed fest.
 - Hosted the event with confidence, introducing guest speakers, coordinating program flow, and engaging a live audience.
- 2. **CODIFY RUMBLE** IIT Roorkee 2024 Competed in a 1v1 coding challenge, testing problem-solving skills under pressure.

Projects

Simon Says Game

Built an interactive memory-based game inspired by the classic "Simon Says" using HTML, CSS, and JavaScript.

- Languages: HTML5, CSS3, JavaScript (ES6)
- Implemented game logic to generate random sequences, track user input, and validate responses in real time.
- Used JavaScript for DOM manipulation, event handling, and managing game states (start, progress, failure).
- Practiced modular JavaScript design and improved understanding of timing functions like "set Timeout" and "set Interval".

Sangeet Music Player

Developed a fully functional web-based music player using HTML, CSS, and JavaScript.

- Languages: HTML5, CSS3, JavaScript (ES6)
- Implemented core features such as play/pause, next/previous track, progress bar, and volume control.
- Utilized JavaScript to manage audio playback and dynamically update UI elements.
- Practiced DOM manipulation, event handling.

Airbnb Clone

Built a full-stack Airbnb clone that replicates core functionalities of the original platform. Users can browse, search, book, and list rental properties.

- Frontend: HTML5, CSS3, JavaScript
- Backend: Node.js, Express.js, Restful API's, Middleware's
- Database: MongoDB
- User authentication and authorization (Sign up, Log in, Log out).
- Dynamic property listing with image uploads.
- Advanced search and filter functionality (location, price, amenities, etc.).
- User dashboard to manage listings and bookings.
- RESTful API integration between frontend and backend.
- Data stored and managed via MongoDB.

CGPA (Present): 6.73 CGPA

Percentage: 83.4%

Percentage: 80%

Skills

- Languages: Java, SQL, JavaScript, HTML, CSS.
- Frontend: React.js (Learning), Next.js (Learning).
- Backend: MongoDB, Node.js, Express.js
- Software Development: Object-Oriented Programming (OOP), Operating System Concepts, DBMS, Computer Networks
- Tools: Git, GitHub, VS Code, IntelliJ.
- **Soft Skills**: Problem-Solving, Critical Thinking, Communication Skills, Teamwork & Collaboration, Time Management, Adaptability, Attention to Detail

Certifications

- Introduction to Artificial Intelligence
- Critical Thinking skills for Professional
- JavaScript Essentials
- Python Basics
- Human-Centered Design for Inclusive Innovation
